As a leading company on its sector, we will keep on maintaining our reputations, by improving its services at the forefront of the industry and focusing on fulfilling the customer needs with the best quality of products and services.

Company Strategy

it is what and who we are..

“ Today the company is growing rapidly, with over dozens of projects completed, many of on-going projects, and several new opportunities.”

Purpose

To be a leader in the industrial contractor, trading, and supplier by providing services, relationship & profitability.

Marketing

To reach all of the Target Segments and Product Line supplies through all Customers.

Vision

Become a Contractor and Supplier Company that grows sustainably and competitively in Indonesia.

Core Values

We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate;

- **Commitment,**
 - **Competency,**
 - **Competitive,**
 - **Collaborative,**
 - **Contribution,**
- into all aspects of our business functioning.

Mission Statement

- Providing the highest quality products and Services.
- Providing excellent service to Business Partners.
- Committed to prioritize Customer's satisfaction.
- Prove Added Value to Shareholders and Stakeholders.
- Implementing Superior Management supported by professional human resources, reliable technology, and integrated systems.
- Implementing Good Corporate Governance by making continuous improvements.

Goals

Regional expansion in the field of industrial contractor, trading and supplier also develop a strong base of key customers.

We believe it is our team who have created our successful design practice through their passion, ambition and confidence.

LIST OF OUR Industrial Segments

POWER PLANT

Most of our completed projects were located at Power Plant. There are many products and services that we can supply to Power Plant.

STEEL MILL INDUSTRY

Another Industrial Segment that we can support both of equipment and services.

OIL AND GAS

Oil and Gas is one of another industry that always potential for our business growth.

PETROCHEMICALS

Indonesia has a lot of Petrochemicals company that needs an assist to keep their operation runs well.

EPC

Engineering, Procurement and Construction segments were also business market for our products and services.

PORT AND LOGISTICS

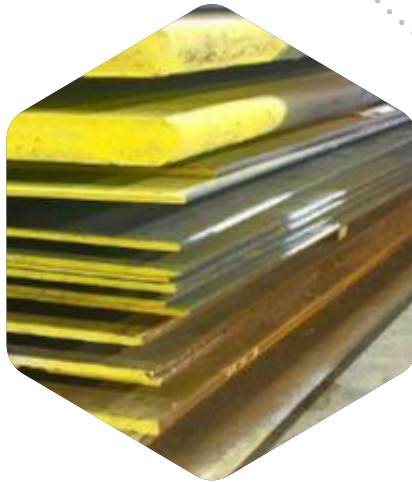

From land sector to maritime, even the port/harbor industry is one of our business plan to reach.

LIST OF OUR

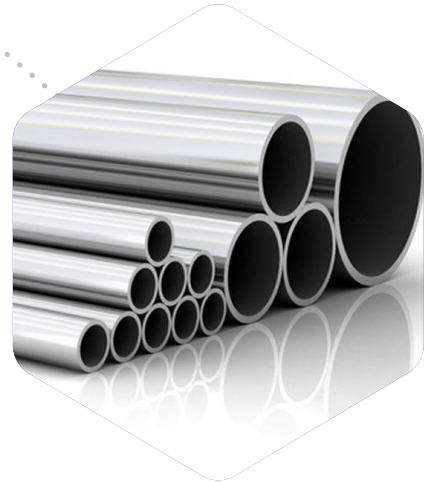

Product Line

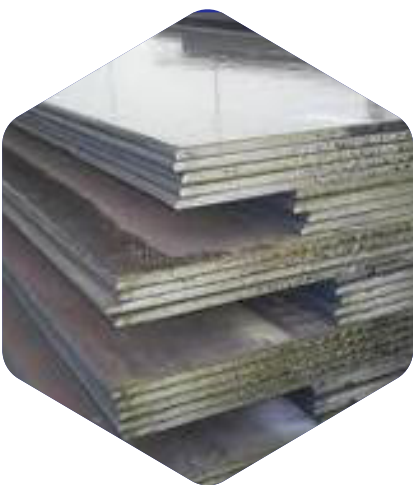

Round Bars

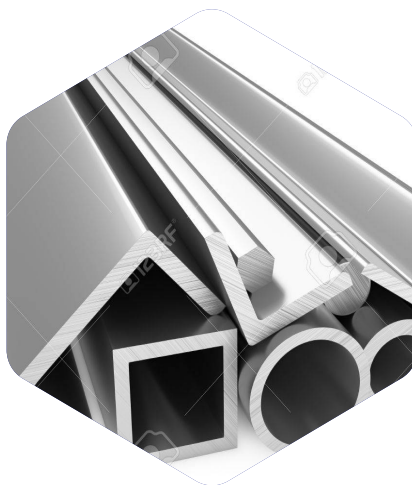

Wear Resistant Plates

Pipe Products

Stainless Steel Products

Special Steel Products

Wire Rope Products

LIST OF OUR Product Line

General Duty Belts

Wear Resistant Belt

Heat Resistant Belt

Oil Resistant Belt

Profile & Cleated Belt

Conveyor System Services

LIST OF OUR

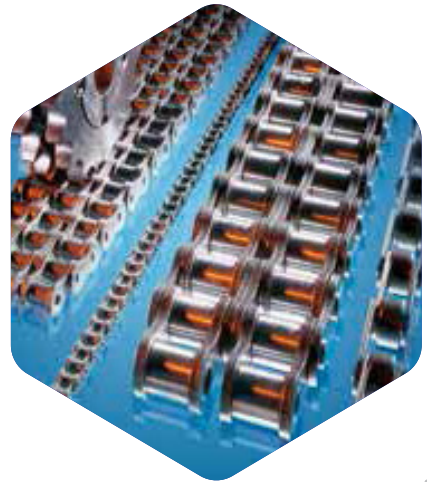

Product Line

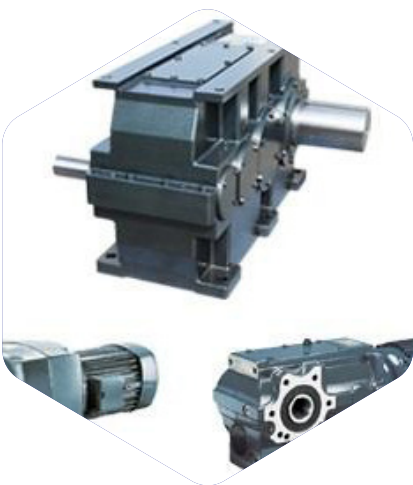

Shaft Fixing & Couplings

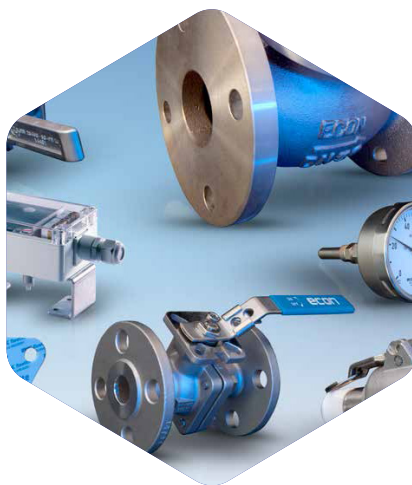

Bearings

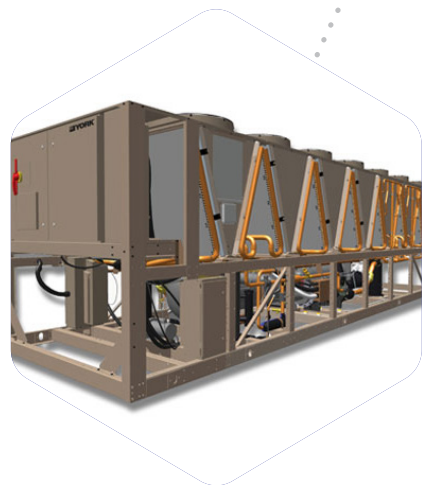

Chain Drives

Gearboxes

Valves

HVAC & Chillers

OUR Business Line

As a local EPC contractor in Indonesia, it is an honor for BHETA who have been trusted to work on prestigious EPC projects in Indonesia which were originally only built by Foreign EPC contractors, both for oil & gas, power plant and other industries.

PT LESTARI BANTEN ENERGI

OUR

Specialities

BHETA is pleased to announce that we have partnered with **BemoRail** for a successful business partnership in the Indonesian/Local rail system business.

With our extensive product range, consultancy and services we serve multiple customers in steel and mining industries, container terminals, shipyards, (heavy) industry, bulk transshipment companies, concrete & cement industry and many more.

BHETA with Bemo Rail operates in a dynamic market bursting with technological advancement. We are committed to helping customers put their logistics on track by supplying products and systems that offer innovative rail-based solutions for heavy industry and storage and transshipment companies alike.

BHETA with Bemo Rail stands for involvement and inspiration and derives authority from expertise, originality, passion and professionalism. We will continue to consolidate our reputation as experts in the field, and aim to become the local and national partner of choice in rail system expertise.

Rail System Products

Rails

Rail Clips

Elastic Pads

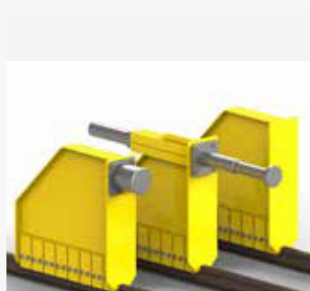

Recess Filling

Trolley Rail Clips

Special Rail Systems

We offer both standard products as well as our own rail products and custom-made products. BHETA with Bemo Rail products are thoroughly designed by a team of in-house engineers and customised in our fully equipped workshop with high end materials. All our products comply with international quality standards.

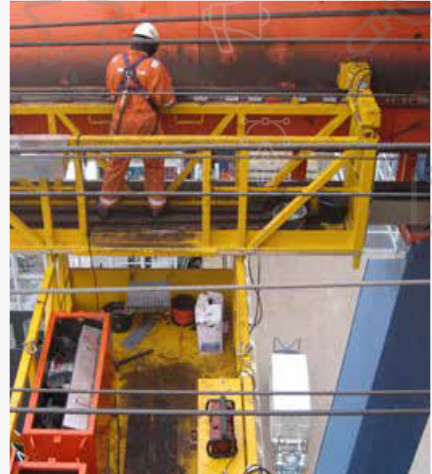

Services

Maintenance of Crane Tracks

Construction and Renovation

Trolley Rail Installation

Trolley Rail Maintenance

Engineering & in-house workshop

Rail Welding

With its experience, expertise, high quality products and complete services, BHETA is confident that it can fulfill all customer needs in terms of rail systems. In order to guarantee a reliable and quick installation, services or supplies, BHETA with Bemo Rail is ready to help you with your next replacement project, maintenance, repair, installation for short rail, gantry rail, crane rail or trolley rail.

Conveyor System Specialities

BHETA has specialized experience in the industrial world, namely conveyor system specialist. We have specialized equipment and experts who are ready to assist customers in terms of conveyor system needs.

BHETA has a lot of experience in belt splicing work, both hot splicing and cold splicing, with the ability to work up to a belt size of 2400 mm.

Apart from belt splicing, some of our experience and specializations in the conveyor system field include;

1. Lagging/Relagging Pulley with rubber or ceramics (both hot and cold lagging),
2. Cold Belt Repair,
3. Conveyor Mistracking Solution,
4. Conveyor Belt Replace & Maintenance,
5. Conveyor Structure Service, Upgrade or Modification,
6. Conveyor Belt System Supports Component, Pulleys, and Accessories.

OUR BELT SPLICING/VULCANIZING MACHINE

Can fit up to 2400 mm in belt width

Conveyor Speciality Products

BHETA also produces accessories for conveyor belt systems under the BHETA TECH brand, including;

1. Rubber Sheet (NR, NBR, SBR, silicone, EPDM, VITON, etc.)
2. Rubber & Polyurethane Molded (rubber packing, gaskets, molding, o-rings, etc.)
3. V Plow & Diagonal Plow
4. Primary and Secondary Scraper
5. Rubber Skirts and Clamps

Besides conveyor belt system and its accessories, BHETA also provides pigging products for pipelines maintenance.

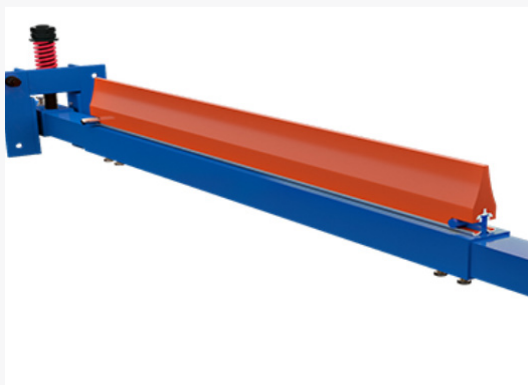

Rubber Sheets

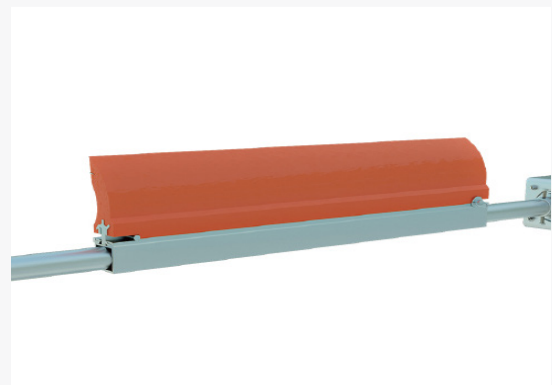

V Plow &
Diagonal Plow

Rubber Skirts
(Rubber & Polyurethane)
